

Versatile Express is an SQL-based client application that has the ability to connect to a shared database. Following are the system specifications and requirements for running Versatile Express.

□ **Client Workstation**

Computer with Intel® Pentium® III or above (Pentium 4 required for Microsoft® Windows® Vista®)

256 megabytes RAM—1 gigabyte is recommended

□ **Workstation Operating System**

Microsoft Windows 2000 with Service Pack 4 or later, Windows XP® with Service Pack 2 or later, or Windows Vista

□ **Network**

Application resides on workstation and has the ability to connect to a central database

□ **Database**

For up to 5 users, MSDE 2000 (Microsoft SQL Server™ 2000 Desktop Engine), is supplied with the product. This platform supports databases up to 2 gigabytes in size.

For a network-based installation, the following database platforms are supported: MS SQL Server 2000, MS SQL Server 2005, MS SQL Server 2005 Express, Oracle® 9i, and Oracle 10g

□ **Installation**

170 megabytes disk space on workstation

Size of database will vary depending on the amount of data you enter for each record

□ **Barcode Technology**

Fully integrated Code 39 barcode technology. Barcode labels can be generated for boxes, file folders, and users from within the system

Supports tethered barcoding

□ **Printers**

Any printer that can be installed on the Windows platform

Laser or thermal transfer barcode label printer recommended for barcode printing
