

**Versatile Retention** is a client/server application that may be used in a stand-alone or client/server environment. In a stand-alone configuration, a Microsoft SQL Server™ 2005 Express database can be used locally. Otherwise, the application supports MS SQL Server 2005/2008 or Oracle® 9i/10/11g as a database platform. Following are the system specifications and requirements for running Versatile Retention.

#### □ Workstation (Client Server Version)

Computer with Intel® Pentium® III or above  
 256 MB RAM or higher  
 Internet Explorer 6® or above  
 Microsoft® Windows® 2000 with Service Pack 1 or later,  
 Windows XP® with Service Pack 2 or later, Windows Vista®,  
 or Windows 7

#### □ Workstation (Stand-Alone Version)

Computer with Intel Pentium III or above  
 600 MHz or faster, 1GHz recommended  
 256 MB RAM or higher, 512 MB recommended  
 500 MB hard disk space minimum  
 Internet Explorer 6 or above  
 Microsoft Windows 2000 with Service Pack 4 or later,  
 Windows XP with Service Pack 2 or later, Windows Vista, or  
 Windows 7

#### □ Server

In a stand-alone configuration the workstation acts as a server, running a background service and Microsoft SQL Server 2005 Express database for server functionality.  
 For a multi-user environment, a standard, Pentium class Windows application server running Windows Server 2000 or above, with a minimum of 512 megabytes RAM  
 An internet connection is recommended for automatic updates

#### □ Network

Supported on Windows network platforms using TCP/IP

#### □ Database\*

Networked: Requires Microsoft SQL Server 2005/2008 or Oracle 9i/10g/11g

Stand-alone: Requires Microsoft SQL Server 2005 Express (distributed with product)

#### □ Installation

500 megabytes disk space

#### □ Printers

Any local or network printer that can be supported in the Windows environment

\* Extended character languages (i.e., Chinese) in Oracle require configuration of the database character set to support UTF8/16 data.
